

La Costa 35 Athletic Club Softball Rules (Adopted Jan 23rd, 2018)

Purpose of the LC35AC Recreational League:

If winning the game is the most important goal for you as a participant, you are in the wrong organization. The competition that exists in our League is to come from the use of bats and gloves, not words or aggressive behavior. Any questions over Umpire calls are to be handled solely by the Team manager and Umpire, in a respectful manner. Un-sportsmanship conduct will not be tolerated and may result in disciplinary action, including suspension or expulsion from the League at the discretion of the League President or Board of Directors as further discussed herein.

If further discussion is needed then the managers and umpires should consult with a league officer or the commissioner of that division. The decisions rendered by the Umpire shall be considered final.

3.5. Player Ejections: Players may be ejected from a game at any time that the Umpire feels that the conduct is detrimental to the League.

3.5.1. 4. Team Rosters & Players

- 4.1. Team Rosters: Dependent on registered player availability; it is the intent of the League that the maximum team roster for all teams in all divisions be 15 players. At no time shall a team roster consist of less than 13 players. Roster players are those players assigned to a specific team prior to the beginning of the season or added to the team during the season with the respective Commissioner's approval. Commissioners have the authority to increase a team's maximum roster by one player. Any additional increases must be approved by the President.
- 4.2. Team Balancing: It is the intent of this league to promote competitive games amongst all teams within their respective divisions. A team that routinely finishes first or a team that routinely finishes last is not in the best interest of this league. Additionally, a team that finishes undefeated or a team that finishes winless is also not in the best interest of this league. In order to promote balance among the teams within this League, the following shall be instituted:
- 4.2.1. Summer Softball: Before the start of the first preseason game, Commissioners shall consult with each Team Manager to determine the number/names of returning players, individual player move requests, and potential internal team conflicts. A Division Balancing Committee shall then be convened by each Commissioner to determine the placement of veteran players, players that desire to switch teams (Free Agents), and new players (Rookies). Upon completion, Commissioners shall submit team rosters to the League President for approval prior to the first regular season game. In the event of circumstances whereby there are a large number of first year players entering the League or there is an obvious imbalance in the League, the Commissioners and their respective balancing committees, upon approval by the President, may transfer players no later than the beginning of the third full week of the regular season.
- 4.2.2. Winter Softball: A draft of all participating players in the League shall be undertaken prior to the beginning of the winter season. Senior and Younger Division players participating in the summer season, as well as other players who choose to play only during the winter season, shall be combined for the Winter Softball draft. The Winter Softball Commissioner shall chair the draft to ensure that the drafting of players is in keeping with the rules as well as the spirit of the League.
- 4.3. Forfeit Rule: Each team will be required to have a minimum of eight (8) roster players available for play not later than ten (10) minutes after the scheduled game time. If a team has less than eight roster players available at that time, the team shall forfeit the game. Recognizing that total "runs allowed" during the season may impact team seeding for the playoffs, the score awarded on a forfeit game shall be 9 - 0.
- 4.4. Pick-up Players:
- 4.4.1. A team is able to pick up a maximum of 2 players to be able to play a legitimate game.
- 4.4.2. If the team cannot field at least 8 regular roster players, the game is forfeit.
- 4.4.3. The fill in player(s) must be identified to the umpire and the opposing manager before the game and agreed upon.
- 4.4.4. The fill in player(s) should be of average ability and should not be a player(s) that can drastically change the outcome of the game.
- 4.4.5. The fill in player(s) will play either catcher or outfield and must bat last.
- 4.4.6. The fill in player(s) will be allowed to pitch
- 4.4.7. Registered Senior / Younger / Winter Division players can play as pick-up players in their Division games, NO players may be picked up that are not registered for that particular year and that division.

La Costa 35 Athletic Club Softball Rules (Adopted Jan 23rd, 2018)

- 4.4.8. Playoffs: There are no pick up players during any playoff games.
- 4.5. Player Attendance: Managers are responsible for tracking, and submitting to the Commissioner upon request, the season game attendance of players. Any player that misses more than half of the regular season games may be ineligible for the playoffs. The determination to make a player ineligible for the playoffs shall rest with the respective Commissioner and will be handled on a case-by-case basis. Rulings regarding ineligibility may be appealed to the League President, whose decision shall be considered final.
- 4.6. Player Absence: All players shall advise their manager(s) in a timely manner if they will be missing a game. Repeated absences without manager notification are considered an act of poor sportsmanship and may lead to a suspension from the league.
- 4.7. Player Participation:
- 4.7.1. Defense: All participants must play a minimum of 4 innings in both the Elvis and Hotel California Divisions.
- 4.7.1.1. The minimum innings should only be used for a player that is injured, limited to playing catcher, or simultaneously participating in both divisions.
- 4.7.1.2. Managers should strive to equally distribute defensive innings amongst all players.
- 4.7.1.2.1. As an example: 9 defensive innings with 10 positions = 90 positions. 90 positions split by 15 players equals 6 defensive innings per player. This is not a requirement, simply a guideline to help determine equal participation.
- 4.7.2. Offense: All participants must bat. A late arriving player shall be placed at the bottom of the batting order.
- 4.7.3. Injured Player: An injured player may leave the game and drop out of the batting order without penalty. Teams may pick up a player to replace an injured player in order to field the minimum of 9 players. Pick player rules stated in 4.4 apply.
- 4.7.4. Player Called Away: A player called away may leave the game and drop out of the batting order without penalty so long as the Umpire does not feel the departure was conducted in bad sportsmanship. Managers of players that must leave prior to the end of the game shall notify the Umpire as soon as possible.
- 4.7.5. Pitchers: If an injured roster player is unable to play the field or bat, that player is still eligible to pitch for his team.

5. Playing Rules

- 5.1. Three-Pitch Softball: The team at bat must provide their pitcher from among their roster players. Pitcher(s) must avoid defensive plays.
- 5.1.1. A League furnished pitching screen will be provided for placement on the pitcher's mound and will be used for all games.
- 5.1.1.1. The placement of the pitching screen will be no closer than 35' from home plate. Its placement must be in a location where the pitcher is able to safely move behind it after each pitch.
- 5.1.2. Rules for the pitcher/screen
- 5.1.2.1. Balls hit by an offensive batter that hit the screen are "dead" balls.
- 5.1.2.2. Balls thrown by a defensive player (except by the Catcher returning a ball to the Pitcher) that hit the screen are "live" balls.
- 5.1.2.3. Any hit on the first or second pitch that hits the pitching screen shall be ruled a "dead ball strike". Any hit on a third pitch that hits the pitching screen shall be ruled a "dead ball" however the 3rd pitch shall be repeated until the hit is in the field of play or ruled a foul ball out.
- 5.1.2.4. Balls hit by an offensive batter that hit the Pitcher who is not behind the screen is an out. Safety shall always be the primary consideration during play.

La Costa 35 Athletic Club Softball Rules (Adopted Jan 23rd, 2018)

- 5.2. Base Placement: The 1st and 3rd bases shall be placed sixty-five (65) feet from home plate IAW ASA Men's Slow Pitch Softball Rules. At Stagecoach Park, the second hash mark is 65 feet for play in the Elvis Division ("SD") only. For both Hotel California Division ("YD") and Winter Softball, the bases shall be placed seventy (70) feet from home plate, (the third hash mark at Stagecoach Park).
- 5.3. First Base: A double first base will be used. On throws from the infield, the runner must tag the outside bag (orange) first when running out a batted ball. Violation results in runner being called out.
- 5.4. Home Plate Area: A separate "Runner's" Home Plate Line shall be provided at seventy feet (70') from third base for (Young Division/ Winter Softball "YD") and sixty-five feet (65') for (Elvis Division "SD") and it shall be located approximately 8 feet from the official Field Home Plate on the third base side (see Figure 1). The trailing edge of the Runner's plate shall be in line with the extended first base foul line and with the front edge of the home plate line.
- 5.4.1. A commitment line shall be located half way between third and home, which after being crossed by the advancing runner, the runner must proceed home, unless the umpire directs the runner back to third base by rule. All putouts at home are considered a force out. No tagging is allowed of the runner after crossing the commitment line.

Figure 1
Home Plate Area

- 5.5. Scoring and Plays at Home Plate: Runner must touch the ground on or behind the home plate line with any part of the body before the catcher makes the force at home. This is the umpire's judgement call.

La Costa 35 Athletic Club Softball Rules (Adopted Jan 23rd, 2018)

- 5.5.1. Runner is out for touching the Field Home Plate. Plays to home are considered forced outs and therefore the Catcher must tag the Field Home Plate in order to force out the runner.
- 5.6. Leading Off: A base runner may not leave any base until the ball is hit. Violation of this rule shall lead to the player being called out.
- 5.7. Runner Avoidance: For any close play at a base, the base runner must slide and/or attempt to avoid the defensive player making the play. If the umpire determines the base runner “intentionally” impeded the defensive player from making a play, the base runner shall be called out for interference. If that interference also prevented the same defensive player from attempting a subsequent play (i.e. a double play) that could have resulted in an additional out, the umpire may additionally rule the trailing base runner as out. The defensive player must make an attempt to throw the ball in a double play situation. This rule is intended to prevent unsportsmanlike base running and to maintain a safe playing environment.
- 5.8. Fake Tagging: Fake tagging is not allowed. A violation of this rule may result in the player being removed from game (Umpire’s discretion) and the base runner advancing one base.
- 5.9. Sliding: Sliding into 2nd or 3rd base or the home scoring plate line is optional, at player discretion. Sliding into 1st base shall be an automatic out.
- 5.10. Infield Warm-Up Throws: In the event that daily scheduled games times are running late, umpires have the discretion to limit infield throws to only one per infielder and/or the first three innings.
- 5.11. Substitute Runner: It is the intent of this rule to provide runners for those players who may not be able to run the bases due to injury or other health reasons.
- 5.11.1. Any player can substitute run
- 5.11.2. Must exhaust all healthy runners before you can run again in the same inning. A healthy runner is defined as one that runs for themselves normally
- 5.11.3. Runner must score or be called out on bases. No pinch runner for pinch runner. The only exception is to be in the event that the pinch runner gets injured
- 5.11.4. If runners position comes up to bat and the runner is still on base, he will be called out
- 5.11.5. The substitute runner can only start from a base. Not home plate.
- 5.11.6. If the player has a pre-game injury and will require a substitute runner for the entire game, the injured player(s) must be identified to the umpire prior to his first at bat.
- 5.11.7. If a player is injured during the game, a substitute runner shall be used for that inning of injury. Further innings shall be determined by the recovery of the player.
- 5.11.8. No substitute runners shall be allowed in the final or extra innings of a game for players who had not previously taken a substitute runner during the game. The only exception will be if the player was injured in the final or extra innings.
- 5.12. Designated Hitter:
